## ***The H.L. Holland Tradition***

Since 1895, and continuing through four generations, the Holland family has imported 18th and 19th Century antique furniture from England and Europe. From this background, we design and produce bench-made, Period Reproduction Furniture in England and Europe exclusively for America's interior design trade. Our pieces can be seen today in the finest homes, offices and hospitality settings.

Leslie Holland continued the tradition of his father and grandfather by opening a showroom in Atlanta's Decorative Arts Center over 30 years ago, offering fine English and European antiques and reproductions to the Interior Design Community. This tradition is carried on today by Harry Holland, the family's

fourth generation in the Interior Design Industry, in a Collection designed and produced for Baker Knapp & Tubbs. In 1995, HL Holland Antique Designs started selling an exclusive line of English Reproductions through

Baker Knapp & Tubbs Showrooms and Baker Retail Stores. We are also represented in Denver by The Shanahan Collection.

A constantly changing selection of the pieces in our line is shown in the Baker Knapp & Tubbs showrooms and Baker

Retail stores. New pieces, as well as old favorites, rotate in and out of the Baker Knapp & Tubbs Collections area of the showrooms. These pieces are available for immediate purchase from the showroom floor.
