Custom Baker Replicas

For several years, HL Holland Designs has been recreating Baker Furniture designs for Baker customers. Because Baker's ability to customize its own furniture is limited, HL Holland Designs has partnered with Baker to offer this service.

On the following pages is a selection of some of the items we have made recently.

Frequently Asked Questions

Please contact us directly if you have additional questions.

What kind of things can you customize?

Since our furniture is built by hand in small workshops, we can customize almost any type of furniture. Whether it is a simple modification to one of our standard items or a fully custom project based on your needs, we will give you what you want.

What is your lead-time for custom items?

Because we make a good percentage of our furniture from scratch, the lead time for a custom piece is similar to the lead time for a standard piece, approximately 22-24 weeks from the time of order to arrival in our US warehouse.

How much does customization generally add to the price of a standard item?

Because every project is unique, let us know your specific details. We will work up a quote within a few days and get back to you with a firm price.
